Zach Njoroge	<ul style="list-style-type: none">- Write Tests- Write and implement view all doctors feature- Write and implement the view doctor's details feature

Weekly Meetings

To keep everyone on the same page and ensure that all tasks are completed efficiently, it's important to have regular check-ins. We plan on scheduling a weekly meeting or sending out a regular update via Discord to achieve this. We will include summaries of what has been accomplished over the past week, any notable progress or setbacks, and any upcoming deadlines or tasks that need to be completed. This information can then be used to assign tasks and delegate responsibilities accordingly to ensure that the team is working together effectively and efficiently.
